## Accidents happen

Accidents with children are bound to happen, but some are more serious than others. The attorneys at **Charles E. Boyk Law Offices** are helping parents with their new book, **Little Kids, Big Accidents: The Ultimate Guide to Child Injury Cases in Ohio**. The book gives insight for dealing with insurance, law enforcement and whether or not an attorney is needed. With chapters such as "Protect Your Child's Recovery" and "Smart Moves to Help Your Child's Case," the guide provides parents with useful information such as how long a family's case could take.
