## 9-Year-Old Entrepreneur Takes Grandfather's Lessons, Turns Them Into Thriving Business

*Kamaree (center) with his family*

When school lets out, most kids look forward to relaxing and playing outside. But a local nine-year-old has taken hard work and ambition to a whole new level and looks at time off of school as his time to build his business.

Kamaree Walker, a soon-to-be 4th grader at Chase STEMM Academy (STEMM stands for Science, Technology, Engineering, Mathematics, and Medicine), started Little Man with Big Dreams lawn care in June 2015 and it has been growing ever since. Complete with uniforms, two lawn mowers, business cards, and a team of five employees, Little Man with Big Dreams specializes in grass cutting and bike and lawnmower repairs and currently serves 15 regular customers.

Kamaree was also the only child to enroll in and complete Assets Toledo, a program that provides practical, experience-based training for those starting or expanding a small business.

"Kamaree is such a hard worker," Mytrice Sanders, Kamaree's mother, said. "He's maintained the honor roll all year long and enjoys helping everyone in need. When he saw a flyer for Assets Toledo and asked if he could do it, I just had to call and ask them since I took the class in 2009. They sat down with me and with him and allowed him to participate. For 13 weeks, Kamaree never missed a class and was really engaged and understood everything. He created a business plan and learned all about building a business from the ground up. We are really proud of him. He does all of the work himself, including loading and unloading the lawn mowers."

Mytrice nominated her son for Bikes for Kids, and since the program is run by small business owners, it made sense to award Kamaree's diligence with a brand new green and black BMX bike during week #8 to match his company's logo colors. NBC 24 and 13 ABC were there to capture the bike award and Kamaree's smiles as he rode around and told his story.

"My granddad taught me how to start cutting grass," Kamaree told news reporters. "My mom and dad would take me to cut lawn so I just wanted to start my own business. The best part of starting the lawnmower is the vibration when it starts."

Chuck Boyk, founder of Bikes for Kids, was excited to see Kamaree's efforts pay off.

"To see a kid so young have such a strong passion for working for himself is awesome," said Chuck. "We know that Kamaree will go on to do great things in life with everything he has already learned about responsibility, determination, and a

strong work ethic."

Started by Charles E. Boyk Law Offices in 2009, Bikes for Kids is a program that gives away one bicycle each week of summer from Wersell's Bike and Ski Shop. While there are no specific guidelines on what makes a nominee deserving of a new bike, we encourage nominators to think about how the child has positively impacted his or her family, friends, community, or classroom. The program is always in need of nominations and they may be submitted by visiting [www.BikesforKidsToledo.com](http://www.BikesforKidsToledo.com). If you would like to hire Kamaree or make a donation to his business, call 567-288-6253 or visit his Facebook page, LittleManWithBigDreams.

## CASES OF INTEREST: AUGUST 2016

### **Man Rear-Ended By A Lowe's Truck On I-475 Needs Surgery To Replace Discs In Back**

After rounds of physical therapy did not work, our client faces the need for a two-level surgery to replace failing discs in his back. He was rear-ended by a Lowe's truck travelling at a high rate of speed while on the highway, causing severe pain and residual numbness in his fingers. Rounds of treatment including an ER visit, CT scans, physical therapy, cortisone shots, and family physician appointments have not healed him, which is why he reached out to our office for help.

### **Home Health Aide Ends Up With Two Broken Legs After ATV Accident**

Our client was on the property of one of her home health aide clients when his dog got loose. The client's son told her to get on the ATV with him to catch the dog, then ended up crashing the vehicle. The impact caused both of her legs to break, requiring multiple surgeries for repair, and she still faces months of physical therapy.

### **Car Accident Leaves Client With Need For Surgery After Being T-Boned**

Surgery and pin implants were needed for our client's thumb after she was struck by someone who ran a stop sign on Route 25. In the emergency room, x-rays were performed on her right ankle, spine, and right hand, where the fracture was discovered. She still needs to wear a brace while whether or not the need for physical therapy is determined.
