Norah Nagel is getting angry at the right things at the right times and whereas she usually demonstrates a wonderful level of cooperation, she is facing, being trapped in the car after the accident caused post traumatic stress syndrome.

Young Woman is Transported By Lifelinet To Hospital After Accident With Semi-Truck

Our client was visiting a loved one at a different hospital for a traumatic brain injury and has had to undergo repeated MRIs and CT scans of his head, neck, and spine. The accident has caused severe headaches and for the need for repeated follow-up treatment with a neurologist, as they are trying to assess the level of permanent damage.

Autobody, as they are trying to assess the level of permanent damage.

Bicyclist May Need Surgery After Being Struck By SUV That Failed To Yield

When a semi-truck pulled out in front of our client and caused a serious accident, the impact caused her to temporarily lose consciousness. She is facing, being trapped in the car after the accident caused post traumatic stress syndrome.

Our client sustained a traumatic brain injury, as well as injuries to her knee, ankle, ribs, and finger, which has had to undergo repeated MRIs and CT scans of his head, neck, and spine. The accident caused severe headaches and for the need for repeated follow-up treatment with a neurologist, as they are trying to assess the level of permanent damage.

Walking into the school, its focus on character education is immediately evident. On the walls of its halls are “pillars of character” – traits such as respect, trustworthiness, responsibility, fairness, caring, perseverance, citizenship, and cooperation. Family and friends of a very small group of students packed into Crissey Elementary in Holland, Ohio on March 7th for the presentation of the school’s annual Character Kid Awards. Nomination are based solely on a student’s character and and an enduring commitment to the qualities associated with good character.

Among those select students to receive this special award was Avah Merillat. Avah, a first grader at Crissey, is the daughter of attorney Wes Merillat and his wife, Stefanie, and she was nominated for the award by her teacher, Mrs. Arlene Carlin for her positive attitude and her treatment of others.

“Avah always has a smile on her face,” Ms. Carlin said. “Her favorite words are ‘sure!’ and ‘ok!’”

“We are so proud of Avah,” Steffan said. “In our home, good character is celebrated above good grades. Raising kids to become adults with strong morals, good judgment and self discipline is a huge task, and it is not easy. So as a parent, it is so rewarding to see good character recognized in your child at school.”

In order to help others demonstrate good character, we asked 7-year-old Avah how she does it. She said:

• I help others when they need help
• I tell someone who is sad or lonely, I talk to them and ask them to join me and friends. I make sure to introduce her and tell her all my friends’ names.
• If kids are mean to me, I just walk away. I choose not to be mean back.
• When I am asked to do something by my parents or my teachers, I do it at the first time without complaints.

We noted that as the middle sister of two boys, it can be tough for Avah to be graceful all of the time. “Those are all very true of Avah, but to be fair, while she usually demonstrates a wonderful gentleness, I have occasionally seen her respond less than gracefully to her two brothers,” Wes said. “But part of good character is getting angry at the right things at the right time. Those boys definitely had it coming.”
TRIBUTE TO TOLEDOANS: GREAT DEPRESSION SPARKS LIFETIME OF GIVING FOR SCOTT HIGH GRAD

Many Toledoans remember Tiedtke’s as the quintessential local grocery and department store near Summit, Adams, and Monroe Streets. But for Mrs. Loretta L. Tucker, it was almost her birthplace. Loretta was born on March 13, 1928 in the back of a cab right in front of the store, weighing in at only three pounds.

“I was a very small baby,” Mrs. Tucker said. “Reflecting on the type of technology available at the time of my birth, I consider myself to be sort of a miracle baby. I’m blessed to still be here and healthy at 86 years old.”

Tucker was born shortly before the start of the Great Depression. Despite the time period being an immensely trying time for most families, Tucker believed that her tragedy did a lot of good for her family. “What a stressful time it was to live during the Great Depression,” Mrs. Tucker said. “One thing for sure is that during this time of hardship for my family, it made us as a family extremely close and more grateful for one another. We prayed, we believed in better times, we believed in God, we believed in something beyond our grasp.”

One study found that men aged 65 and older who had pre-existing cardiovascular issues had more than doubled their risk of a heart attack within the first 90 days of taking testosterone. Among men younger than 65 who also had pre-existing heart issues, the study found the risk of heart attack in the first 90 days following the first prescription of testosterone nearly tripled. Among all types of testosterone treatments, including those that are administered by topical solution and by injection, the resolutions of an increased risk of the following adverse events among men using prescription testosterone replacement drugs include:

- Heart attack
- Blood clot
- Stroke
- Deep vein thrombosis
- Palpitation

These medical problems prompted the U.S. Food and Drug Administration in January 2014 to announce an investigation into the safety of these drugs and their risks to consumers.

RECIPE: Katie’s Kick-Butt Buffalo Chicken Dip

Katie Mandley, a senior at Scott High School, was selected as February’s Student of the Month.

Katie’s Kick-Butt Buffalo Chicken Dip

Every time there is a paycheck in the office, the Boyk Law staff begs Paralegal Katie Day to make her infamous dip. While we prefer it with tortilla chips, it can also be served with veggies or pita.

INGREDIENTS:

- 2 cans chunk chicken (10oz each), drained
- 2 packages cream cheese (8 oz each), softened
- 1 cup ranch dressing
- Napa boy pepper sauce, like Frank’s Red Hot
- ½ cup shredded cheddar cheese

INSTRUCTIONS: Combine all ingredients in a medium saucepan and heat until melted and bubbly. Can also be added to a crock pot and cooked on Low for 3 hours.

By Fred Boyk

BOYK LAW’S NEW REPORT: TESTOSTERONE TREATMENT FOR LOW-T COULD TAKE YOUR LIFE

Over $100 million dollars of marketing by drug manufacturers have led to many men believing that testosterone replacements to treat “Low-T” or symptoms of fatigue, sexual dysfunction, hair loss, and/or weight gain was a good option. Yet several recent studies suggest a link between the use of testosterone replacement therapy and serious adverse cardiac events.

One study found that men aged 65 and older who had pre-existing cardiovascular issues had more than doubled their risk of a heart attack within the first 90 days of taking testosterone. Among men younger than 65 who also had pre-existing heart issues, the study found the risk of heart attack in the first 90 days following the first prescription of testosterone nearly tripled. email us at info@charlesboyk-law.com. You may also
in general, it is imperative to be very

be expertly phrased to make it sound
like the IRS called you about a debt you
yourself, the IRS will not call you to verify

If you get a call from someone claiming that he or she is an IRS agent and there is a
warrant out for your arrest for unpaid taxes, the caller is most likely an imposter.
This exact scenario happened twice to two of my clients this year. They were told to
load money onto a prepaid debit card from Wal-Mart, and warned that they only had a
couple of hours to do so. An ‘agent’ called back to get the debit card information, and
claim that a federal officer would be taking them into custody if the transfer was
not made. These calls would come in over the weekend and outside of the IRS’s normal
business hours, so that the victims would not be able to contact the IRS to verify the
agent’s story.

Here are some important facts about the IRS to help the same scam from happening

• The IRS alrets taxpayers of unpaid
taxes in writing, not over the phone
• The IRS does not accept debit card numbers or wire transfers over the
phone
• The IRS will never contact you by
phone without your permission, and
never on the weekends

In general, it is imperative to be very
careful when dealing with an unknown
person on the telephone. Authoritative, official-sounding voices may really be
to fraudulently induce you to turn over your hard-earned funds.
If you are not sure of the validity of a
call demanding payment for a tax debt, contact
your local police, the FBI, or the IRS at
1-800-829-1040.

Casey Elementary School is not your ordinary school. Its administrators and teachers tirelessly work to give life to its mission to provide “exceptional education for today’s learners and tomorrow’s leaders.” That mission and the school’s efforts have lead to Casey receiving the prestigious “Hall of Fame” award from the Ohio Association of Elementary Administrators. That award was not only for Casey’s commitment to its students academic achievement, but more importantly, for its character education.

“We are so proud of Avah,” Steffenie said. “In our home, good character is celebrated above all good grades. Raising kids to become adults with strong morals, good judgment and self-discipline is a huge task, and is not easy. So as a parent, it is so rewarding to see good character recognized in your child at school.”
