CASES OF INTEREST:

APRIL 2012

YOUNG CHILD BITTEN BY A VIZSLA

Our client was over at a family member’s home when she was bitten by a dog called a Vizsla. A Vizsla is a Hungarian hunting dog. Even though they are a hunting dog they are known to be kind, loving and gentle to those around them. Everyone in the house heard the nip and bark from the dog then all of a sudden heard our client crying. She was taken to an Indiana hospital for evaluation and stitches. Our client not only had to have stitches but also had to treat for an infection from the wound. The family is now contemplating plastic surgery to take care of the scar that is now on her face forever. Scars are permanent and surgery can lessen their severity but cannot eliminate them.

INJURED ON HIS WAY HOME FROM WORK

Our client, who works third shift, was on his way home after work when a county snow plow ran a stop sign, causing our client to run into him. Our client’s van was totaled due to the accident. He was taken by EMS to a local hospital and was then seen by his family doctor. Our client sustained severe injuries to his lower back and neck.

T-BONED & IN THE HOSPITAL FOR OVER A MONTH

Our client was traveling on Lincoln Avenue when she defendant ran a red light on North Detroit. She was struck and knocked unconscious due to the impact. She was taken by EMS to Toledo Hospital where she stayed for five days. She was then transferred to Flower hospital where she stayed for another month. Our client sustained a broken neck, cracked vertebrae and memory loss. She was then kept on a feeding tube for seven months. Our client is still seeking treatment for her injuries.

YOUNG CHILD BITTEN BY A VIZSLA

One of Dr. Bertollini’s hobbies is snow skiing. He enjoys traveling with his family to Salt Lake City, Utah to snow ski in the winter. He also enjoys playing with his two children.

Did you ever get injured while playing sports, say in high school or college? Dr. Matthew Bertollini did, and that is what made him want to become a chiropractor and help others. Dr. Bertollini got injured during a wrestling match at the age of 16. He was treated for his injuries by a chiropractor, and was amazed by his recovery time. It made him think maybe one day he could be a chiropractor and help others have a fast recovery.

Dr. Bertollini shadowed a couple chiropractors during his undergraduate studies while at Oakland University in Rochester, Michigan. He then continued his chiropractic studies at Life University in Marietta, Georgia. Dr. Bertollini graduated from Life University in 2001. After graduation Dr. Bertollini became an associate at various chiropractic firms in Michigan and Northeast Ohio before settling down in Toledo. He enjoys living in Toledo and feels that it is the right fit for him.

“Dr. Bertollini has a fantastic reputation. I have had a large number of clients compliment his quality care and great results,” said Charles Boyk.

Dr. Bertollini said the best part of his job is seeing people get well and their progress throughout treatment. He has a great staff and gives them credit for helping the office run smoothly.

“I have a great group of girls here. They have all been with me at Glass City Injury & Rehab for a couple years now,” said Dr. Bertollini.
