December’s Raving Fan of the Month

“I want to thank your team for making my daughter feel comfortable yesterday. She left your office yesterday with a smile and felt confident with your team’s efforts. It’s small things like this that reassure her that she has a voice and that people care about her and what has happened. All she wants is to be acknowledged and when she has a concern that it is addressed. Thank you for being a part of that for her. I have not seen professionals that go the extra mile and add an additional layer of customer service the way your team does. It truly does make us feel special and we appreciate it.”

From The Office That’s “Going To The Dogs”

“Happy Holidays, From the Office That’s Going To The Dogs”

“I loved to work – that’s just the type of guy I am. I used to build electrical bridges for Fort Defiance Construction Company and loved every minute of it. That all came to a screeching halt on August 25, 2003, when my boss told me to stand in the bucket of a backhoe so he could lift me up to fix some low-hanging cables and telephone wires. Allegedly he was on his cell phone when I came within contact with an energized line and was electrocuted: 7200 volts of electrical current went through my right hand, across my chest, and blew out my left wrist. I was thrown out of the backhoe bucket and fell to the ground. I woke up in St. Vincent’s Burn Unit. I didn’t know what happened to me or how it happened until they explained what happened.

I spent the next 28 days in a coma and another 87 trying to recover from multiple surgeries, nearly 20 skin grafts, and cardiac arrest; among other things. We called three attorneys after I woke up in the hospital and Chuck Boyk was the only one who would come down and visit me there. He was above and beyond from day one; he really had a lot of work involved in the case and he really helped me out financially. I was hit pretty hard because of the accident and Chuck got right to work.

He handled the worker’s compensation claim and had expert witnesses come in who specialized in electrocution and fall accident cases. They seemed to know exactly what was going on and that was a good move on his part. Chuck and his staff did so much. They had piles and piles of paperwork on my case and worked hard to get me a settlement that would take care of me for the rest of my life since I can no longer work. He also fought for permanent total disability and on my workman’s compensation case and social security benefits. Chuck did good. Very good. I would highly recommend him to anyone injured on the job, especially on a construction site. You won’t be disappointed.”

A comprehensive guide to all aspects of dealing with injury accidents that occur daily on construction sites across the country, the goal of Injured Worker’s Guide is to answer questions like:

- Who is going to pay for my medical bills?
- What if I will never be able to do this kind of work again?
- How are we going to survive as a family without the paycheck?
- Am I eligible for worker’s compensation?
- Can I sue the construction company responsible for my injuries?
- What paperwork needs to be filled out?

We want you readers the chance to jump into the lives of other workers who faced seemingly insurmountable injuries but were able to get their lives back with the help of Boyk Law.

Boyk Law is offering free copies of Injured Worker’s Guide, Ohio Construction Accidents simply by calling 419-241-1395, emailing info@charlesboyk-law.com, or by requesting online at www.ohiocostructionbook.com.

CASES OF INTEREST: DECEMBER 2016

Passenger In Rollover Accident Left With Scars, Traumatic Brain Injury
Our worker’s compensation client needed to undergo surgery after slipping in water that fractured in her patella caused her to miss months of work as he fights to regain his strength.

Fall At A Local Convention Center Leaves Woman With Four Fractures In Knee
One of our injury attorneys successfully negotiated a settlement with the venue for four fractures in her patella caused her to miss months of work as she still undergoes physical therapy to regain range of motion. The injury has left her unable to bend her knee to even a 90-degree angle.

Toledo Police Officer Left With Shattered Foot, Torn Meniscus After Fight With Suspect
Our worker’s compensation client had to undergo surgery after slipping in water that fractured his patella caused her to miss months of work as he fights to regain his strength.

RSVP to Boyk Law client Debra Mowery told friends and family she and her daughter Alicia Nicole were packing up and moving to Los Angeles a year and a half ago to help the then-14-year-old make it big as an actor, they all thought she was crazy.

The storm and daughter team, along with Alicia’s grandmother, ignored the naysayers, found an apartment in West Hollywood and by a stroke of luck, Alicia was discovered by a modeling agency while out in public just two weeks after settling in.

We sat down with Alicia Nicole, 16, who has since landed roles in TV shows like “School of Rock” and “Henry Danger” on Nickelodeon, as well as on “Black-ish” on ABC.

What do you like to do in your spare time? I love going to the beach and hanging out with my friends. On set, sometimes we have long days and others are short, depending on the number of takes we have.

Favorite ice cream? Spaghetti. One of the best things about working takes we have.

What about a pizza, a burger or something else? You probably have something to do with that!

Favorite candy? Cake batter

Favorite food? Spaghetti. One of the best things about working takes we have.

What’s the one thing you miss most about Toledo? I miss my family and friends the most, but I also miss the home-cooking in Ohio.

What advice would you have for other young people trying to make it big in Hollywood?
Stay faithful to yourself and to other young people trying to make it big in Hollywood.

What do you think is your favorite hobby? Dancing, shopping, and experimenting with fashion and make-up.

When Boyk Law client Debra Mowery told friends and family she and her daughter Alicia Nicole were packing up and moving to Los Angeles a year and a half ago to help the then-14-year-old make it big as an actor, they all thought she was crazy.

When Boyk Law client Debra Mowery told friends and family she and her daughter Alicia Nicole were packing up and moving to Los Angeles a year and a half ago to help the then-14-year-old make it big as an actress, they all thought she was crazy. But the mom and daughter team, along with Alicia’s grandmother, ignored the naysayers, found an apartment in West Hollywood and by a stroke of luck, Alicia was discovered by a modeling agency while out in public just two weeks after settling in.

We sat down with Alicia Nicole, 16, who has since landed roles in TV shows like “School of Rock” and “Henry Danger” on Nickelodeon, as well as on “Black-ish” on ABC.

What’s the farthest you’ve been from home?

Alicia: On set, sometimes we have long days and days and days are short, depending on the number of takes we have.

Favorite ice cream?

Alicia: Cake batter

Favorite food?

Alicia: My favorite food is pizza and pasta.

Favorite Pixar movie?

Alicia: Monsters, Inc.

What is your favorite hobby?

Alicia: I love going to the beach and hanging out with my friends. On set, sometimes we have long days and days are short, depending on the number of takes we have.

What advice would you have for someone who wants to pursue acting?

Alicia: I would tell them to stay faithful to yourself and don’t change for other people. I miss my family and friends the most about Toledo.

What’s the one thing you miss most about Toledo?

Alicia: I miss my family and friends the most, but I also miss the food. I still consider Ohio my home!

What is your favorite hobby?

Alicia: Dancing, shopping, and experimenting with fashion and make-up.

What’s the one thing you miss most about Toledo?

Alicia: I miss the food. I still consider Ohio my home!

The BOYK BULLETIN

Clients Share Their Stories In New Boyk Law Book
Aimed At Helping Construction Accident Victims

“Tired to work – that’s just the type of guy I am. I used to build electrical bridges for Fort Defiance Construction Company and loved every minute of it. That all came to a screeching halt on August 25, 2003, when my boss told me to stand in the bucket of a backhoe so he could lift me up to fix some low-hanging cables and telephone wires. Allegedly he was on his cell phone when I came into contact with an energized line and was electrocuted. “7200 volts of electrical current went through my right hand, across my chest, and blew out my left wrist. I was thrown out of the backhoe bucket and fell to the ground. I woke up in St. Vincent’s Burn Unit. I didn’t know what happened to me or how it happened until they explained what happened.

I spent the next 28 days in a coma and another 87 trying to recover from multiple surgeries, nearly 20 skin grafts, and cardiac arrest, among other things. We called three attorneys after I woke up in the hospital and Chuck Boyk was the only one who would come down and visit me there. He went above and beyond from day one; he really had a lot of work involved in the case and he really helped me out financially. I was hit pretty hard because of the accident and Chuck got right to work. He handled the worker’s compensation claim and had expert witnesses come in who specialized in electrocution and fall accident cases. They seemed to know exactly what was going on so that was a good move on his part. Chuck and his staff did so much. They had plenty of paperwork on my case and worked hard to get me a settlement that would take care of me for the rest of my life since I can no longer work. He also fought for permanent total disability on my worker’s compensation case and social security benefits. Chuck did good. Very good. I would highly recommend him to anyone injured on the job, especially on a construction site. You won’t be disappointed.”

That story, written by Boyk Law client Robert Luchs, is just one of the many construction accident stories recounted by Boyk Law’s new book, Injured Worker’s Guide, Ohio Construction Accidents.

A comprehensive guide to all aspects of dealing with injury accidents that occur daily on construction sites across the country, the goal of Injured Worker’s Guide is to answer questions like:

- Who is going to pay for my medical bills?
- What if I will never be able to do this kind of work again?
- How are we going to survive as a family without the paycheck?
- Am I eligible for worker’s compensation?
- Can I sue the construction company responsible for my injuries?
- What paperwork needs to be filled out?

We want the reader to have the chance to glimpse into the lives of other workers who faced seemingly insurmountable injuries but were able to get their lives back with the help of Boyk Law. Boyk Law is offering five copies of Injured Worker’s Guide, Ohio Construction Accidents simply by calling 419-241-1395, emailing info@charlesboyk-law.com, or by requesting it online at www.ohioconstructionbook.com.
