LITTLE BOY WITH BIG HEART DONATES BIRTHDAY GIFTS TO ANIMALS IN NEED

Alexander and his friend, Jack being interviewed by 13 ABC

Not many kids would think of using their birthday as a way to help wild animals in need.

But animal-lover Alexander White did not think twice before requesting that instead of bringing presents to his 7th birthday party on March 22, 2014, friends and family bring donations from the Amazon.com Wish List of Nature's Nursery Center for Wildlife Rehabilitation and Conservation Education.

Nature's Nursery is a non-profit organization located in Whitehouse, Ohio that provides medical care to injured and orphaned wild animals. They also conduct nature education programs for children and adults in order to fulfill their mission of improving the well-being

of Northwest Ohio wildlife populations and habitat through public education and rehabilitation of injured, ailing, and orphaned wildlife.

Alexander collected 25 items and an Amazon gift card for the sick and wounded birds and animals, which include a bald eagle, fox, and turtle. News station 13 ABC was so impressed with the first grader's generosity that they captured on video his birthday visit to the Nursery and aired it on their nightly broadcast. "I knew Nature's Nursery couldn't keep all of the animals alive without all the supplies, so I thought maybe it's a good idea to give Nature's Nursery some help by giving them some supplies," Alexander told the station.

Nature's Nursery Executive Director Candee Ellsworth called Alexander's donation "simply amazing."

Director Candee Ellsworth hugs Alexander after his donation

"To genuinely be worried about animals' welfare, making sure they have what they need and that we have what we need to care for them, means the world," Candee said.

Alexander's passion for animals started at a young age. "Ever since Alexander was three, he wanted to be a paleontologist," Mom Cindy White said. "His most recent aspiration is to be a marine biologist. He simply loves animals and wanted to help them on his birthday."

Cindy is a paralegal in our office, and has worked for Chuck for more than 10 years.

"I'm proud of Cindy for encouraging her kids to give back," Chuck said. "Although after having known the White family for so long, I am not surprised. They are great people."

TRIBUTE TO TOLEDOANS: LOCAL RECORDING ARTIST, CLIENT PAYS TRIBUTE TO TOLEDO ON ALBUM

Sovine Utley is so proud of where he was born and raised that he made the city of Toledo the focal point of his work.

Focusing on R&B and rap, Sovine's stage name is T.Diamond Keys, after his childhood nickname, Black Diamond.

Sovine Utley, aka T.Diamond Keys

T.Diamond has recorded songs like, "Dear Toledo" and "Toledo Takeover", and his lyrics are filled with shout-outs to T-Town like "we're constantly representing the Glass" and "It's Toledo, baby. We're so gnarly. There's nothing much to do, so all we really know is party."

T.Diamond's newest album cover

T.Diamond has been rapping since he was 10 years old, and started by writing down his thoughts on a pad of paper.

"At first I was freestyling all of my raps

because I thought that's how all of the famous rappers did it," T.Diamond said. "Then I realized that to really create a good album, you should master your lyrics."

After being injured in a car accident, one of his friends suggested that Sovine contact Chuck Boyk for help. Since then, employees in the office have enjoyed listening to his albums and watching his music videos. And even though rap isn't Chuck's number one choice of music, the staff did convince him to listen to his client's rhymes.

"My favorite T.Diamond song is 'Be Working' because it reminds me of what I like to do, which is work," Chuck said.

T.Diamond can often be heard on Toledo radio station Hot 97.3 and you can check out all of his albums and videos by visiting his website, www.tdiamondkeys.com.

3rd ANNUAL JOG N' JAUNT PROVIDES FITNESS OPPORTUNITY FOR PEOPLE FROM ALL WALKS OF LIFE

Whether you like to run, walk, or roll for fun and fitness, Josina Lott Residential and Community Services has got you covered.

The organization has provided developmentally disabled adults with quality services, safe environments, opportunities for self-determination, and community integration for the past 35 years, and they are inviting the community to their campus at 120 S. Holland-Sylvania Rd. in Toledo for their 3rd Annual 5k run and 1.5 mile walk.

The Jog & Jaunt is northwest Ohio's only officially inclusive race, which means wheelchairs, kids, strollers, and pets are all welcome.

To prepare for the race, many of the residents have joined Inclusive Miles, a program that helps individuals with disabilities achieve personal running, walking and rolling goals by providing training, fellowship and greater access to the community. The program was funded by the Toledo Roadrunners Club and their members serve as mentor trainers and runners to the individuals in the Inclusive Miles Program.

"It is amazing to see how the residents overcome the challenges they are faced with every day," said Anneke Godlewski, who sits on Josina Lott's Board of Directors. "In honor of their daily challenge, we hope that families will come out to the Jog & Jaunt to challenge themselves and each other and to show their support for Josina Lott."

Jog & Jaunt 5K is open to all ages and will take place on

Saturday, May 17th with the run, walk, and roll beginning at 9:00 AM. To register, visit www.josinalott.org, call (419) 866-9013, or email Michelle Kravetsky at mkravetsky@josinalott.org

START HIGH SCHOOL'S STUDENT & TEACHERS OF THE MONTH

When Sophomore Raven Bucher was struggling with some personal issues last year, it was her teacher, Kay Yavorsky, who really helped her through the difficult time.

"Mrs. Yavorsky was really supportive and understanding," Raven said. "Even this year, she still stops me in the hall and asks me how I am doing. She is a really awesome, supportive teacher."

That was just one of the reasons why Raven chose to nominate Ms. Yavorsky for Start High School's March teacher of the month.

Raven loved being able to walk into her teacher's class and announce that her nomination had won Ms. Yavorsky a \$250 Visa gift card. The teacher's reaction was equally as excited at learning the news.

"Awe, thank you!" Ms. Yavorsky exclaimed, as she hugged Raven. "Thank you so much! Wow!"

The same excitement was shared by nominating teacher Lisa Tucker, who selected Sophomore Gabby Garza as her pick for March's Student of the Month.

The class applauded and Mrs. Tucker was choking back tears of pride when explaining why she nominated Gabby.

"Gabby has made a big turnaround from last year," Mrs. Tucker said. "She is an A/B student now who tries super hard most all of the time. She is just a really good student who has done a really good job making sure that she becomes a great young adult."

CASES OF INTEREST: MAY 2014

At-Fault Driver Knocks Young Woman's Car Into Building, Causes Fractures & Concussion

Our 19-year-old client was knocked unconscious after being struck by another driver with such force that our client's car was knocked into a building. EMS transported our client to a local hospital where she was diagnosed with multiple fractures in her arm, shoulder, and hand, in addition to a concussion. These types of injuries often result in the need for physical therapy and/or surgery, which may eventually be the case in this situation.

Client's Testosterone Therapy May Have Contributed To His Spinal Cord Infarction

Our firm is investigating the link between our client's spinal cord infarction (stroke within the spinal cord) and his testosterone therapy treatments, after the *Journal of the American Medical Association* released a study linking prescription testosterone drugs to an increased risk of cardiovascular injuries in men. The stroke worsened our client's mobility and contributed to his need for a home health aide to assist in daily activities.

Car Strikes Client Standing on Sidewalk, Causes Serious Shoulder Injury & Time Off Work

Our client was thrown in the air and landed on the hood of the car that struck him while he was standing on the sidewalk. He was taken by ambulance to a local hospital where it was discovered that he had a sprained neck, concussion, knee injury, and a tear in his shoulder that requires continued physical therapy and probable surgery. His shoulder injury has resulted in our client missing four months of work at a job that he has enjoyed for nearly 25 years.
