Parasite Panoply is a chemical herbicide that has been linked to Parkinson’s disease. The manufacturers are facing a growing number of lawsuits brought by people who were exposed to the chemical and later developed Parkinson’s Disease. This month, one of the first cases filed is set to go to trial in Illinois. The case is being closely watched as it will set the tone for future lawsuits.

Roundups: In ongoing litigation, an attempt by Bayer, the manufacturer of Roundup, to resolve future cancer claims has been shot down by the U.S. District Judge overseeing the case. Bayer proposed to pay as much as $2 billion to resolve future claims, but the Judge said that Bayer’s proposal is “clearly unreasonable” to victims. The rejected settlement proposal represents a part of the broader $11.6 billion agreement to resolve ongoing Roundup lawsuits.

3M Military Earplugs: A federal jury in Florida recently decided that the 3M Company was liable for three former service members’ hearing loss and tinnitus. The jury determined that 3M knew their earplugs were defective yet concealed the defects from the U.S. military and allowed service members to suffer life-altering hearing loss.

DRUNK DRIVER SMASHES WOMAN HEAD-ON CAUSING EXTENSIVE INJURIES

Our client was traveling northbound on Stone Street in Fremont, Ohio when a drunk driver traveling southbound crossed left of center and smashed head-on into our client’s vehicle. Our client suffered traumatic injuries and was life-flighted to Toledo Hospital. She was found to have broken bones in her left foot, leg, both wrists, both hands, and neck. She has undergone three surgeries and continues to recover treatment. Our office is pursuing a compensation claim to help our client on her long road to recovery.

INJURED PRODUCTION WORKER SUFFERS A FINGER AMPUTATION AFTER A MACHINE MISFIRE

Our client is a production worker and was working on a bearing press when the machine misfired. It smashed down onto her right hand and trapped it in the machine. She was taken to a nearby hospital but was then transported to UTMC for emergency surgery. Our client’s finger was deemed irreparable and was amputated. Our office is pursuing a workers’ compensation case in addition to a Violation of a Specific Safety Regulation.

MACHINE MISSING SAFETY FEATURES, STEEL PIN GOES THROUGH MAN’S THUMB BONE

Our client was on the job working a machine press which was missing a safety sensor and shield. As he was using the machine, a steel pin went through the hole in his left thumb. He was taken to Blanchard Valley Emergency Room and is currently receiving treatment. Our client faces major surgery soon. Our office is pursuing workers’ compensation case in addition to a Violation of a Specific Safety Regulation.
